Principals Report

Mask Mandate beginning November 2nd.

We are NOT reducing lunch to ten minutes, it will continue to be 15 min. We are requesting kids keep their masks on as long as possible, ex. While washing hands, etc.

We are NOT asking students to wear masks at recess. There is no contact tracing possible during recess.

Mask breaks will be left up to the teacher. Ex. Every hour take off their mask for just a couple of minutes, or an area where it is set that this is where you can 'take a break'

We have to make sure masks are kept clean. Bring a plastic bag, etc.

Each student will still be provided two washable masks plus we will have disposable masks.

We are not going to segregate kids that don't have a mask for a medical or religious reason.

A handful of students are coming back when they become mandatory as well as a handful that are thinking of going remote.

There is a medical and religious waiver available on the website.

The masks are ordered, not sure exact date on when they will be here.
