Prepare Your Families with Lifesaving Skills: Hands Only CPR

From the American Heart Association...One of the best gifts we can give our loved ones is the ability to save a life in an emergency. About 70% of cardiac arrests happen in homes and many – far too many – family members are not prepared for a cardiac emergency.

That is why our school is encouraging families to learn the life-saving skill of Hands-Only CPR and to have an amazing chance to become a CPR lifesaver if ever needed. Please take a few minutes to watch the American Heart Association Hands-only CPR video here: [Hands Only CPR](#).

Immediate CPR can double, or even triple, a cardiac arrest victim's chance of survival!
